

CFES Leadership Challenge 2011-12

In the 2011-12 school year, we are challenging every CFES Scholar to become a service leader by setting and achieving one leadership through service goal. That goal can be one that you set for yourself or a team goal that you set with friends, classmates, or your entire school community.

*Remember, a **CFES service leader** is someone who takes action in order to improve or care for their school, local, state, national, or world community.*

1. What **kind of leader** do you want to be in the next nine months in your school, local, state, national, or world community?

2. What is your **leadership goal**?

3. What **actions** will you take to meet your goal and ultimately make your school and community a better place?

4. Who can **help you** stay on track to meet your leadership goal?

5. How will **you know and how will others know** if you have met your leadership goal?
