

CFES College Partners Application Fee Waiver Agreement

College partners play a critical role in helping College For Every Student (CFES) ensure that CFES Scholars – almost every one of whom lives at or below the poverty level – are successful in gaining access to higher education. Of the 1,633 CFES Scholars who were high school seniors this past school year, 97 percent enrolled in college. One reason that CFES Scholars have been so successful is that college leaders have removed barriers to college access.

Not only is the application fee waiver for CFES Scholars essential in helping these young people achieve the dream of college, it is a significant factor in a Scholar’s determination of where to apply.

CFES partnering colleges and universities participating in the CFES Application Fee Waiver Program are asked to grant fee waivers to CFES applicants. Fee waivers are offered at the discretion of the college or university and are not guaranteed by CFES.

CFES has created a “CFES College Application Fee Waiver Request” form for CFES Scholars that is available at this link: <http://www.collegefes.org/pdf/CollegeFeeWaiverForm.pdf>. Colleges may require additional information or procedures.

CFES college partners offering fee waivers are identified on the CFES website at this link: <http://www.collegefes.org/partners.php>.
